

Cruso is a Belgian furniture manufacturer, offering warm and playful furniture created by internationally renowned designers. The company has adopted an eco-friendly production process, using local and sustainable raw materials, manufacturing in Europe and employing land transportation as well as compact packaging solutions.

Cruso products are simple and welcoming. They have been designed for demanding everyday use and are perfect for cosy homes or professional environments.

PADDLE.

BY BENOÎT DENEUFBOURG

The PADDLE collection is inspired by the soft and round shapes of paddle blades.

Made entirely from plain wood, they have been skillfully designed to create a simple and solid structure with elegant lines. Their quality makes them suitable for home as well as demanding environments, such as hotels, restaurants and bars.

DESIGN BY BENOÎT DENEUFBOURG

Benoît Deneufbourg has been running his design studio in Brussels since 2004.

His work covers a wide range of disciplines: furniture, lighting, accessories, interior and scenography. With a simple and relevant approach he aims to provide simple and effective solutions.

In the past 15 years, Benoît Deneufbourg exhibited his work in numerous venues: Milan furniture Fair (Italy), Stockholm furniture Fair (Sweden)... Also featuring the PADDLE collection, he displayed "Process" as a solo exhibition in 2019 at the Innovation Design centre CID: Grand-Hornu (Belgium).

PRODUCT DESCRIPTION

Square table made out of oak or ash.
Available in 4 colours.
Flat packing : kit form to be mounted.

MATERIALS

Ash - Oak

PADDLE SQUARE TABLE

CHARTER OF ECOLOGICAL COMMITMENT

Cruso's objective is to constantly reduce its ecological footprint :

- . Designing durable and resistant products
- . Manufacturing in Europe
- . Reducing packaging and transport
- . Using sustainable materials

We want to offer the best design possible to our customers. It means having high quality standards for conception and production. That is why we care about working with talented industrial designers that share our philosophy. We make sure that their creations reach the market in the most responsible way possible. Our production process follows these simple rules : First, recycled or recyclable materials for both our products and their packaging. Secondly, European production and sourcing for limited CO2 emissions during transport.

As a young design brand, our duty is to deliver long-lasting furniture independently from trends. We believe in design simplicity and sustainable manufacturing.
